Hiring Manager

Veritech Solutions

Dear Hiring Manager,

I am writing to express my strong interest in the Full Stack Developer position at Veritech Solutions, as advertised. I recently completed my Bachelor's degree in Computer Science at Karatina University, and while I may be at the start of my professional journey, I bring with me a solid foundation in full-stack development, a self-driven learning mindset, and a passion for building impactful web and mobile applications.

Throughout my academic career, I have honed my skills in **Python and JavaScript**, building responsive web applications with **React** and engaging mobile apps using **Flutter**. I have a solid grasp of **HTML, CSS, and JavaScript**, and I am confident in designing user-friendly front-end interfaces. My back-end proficiency includes working with **relational databases** such as **MySQL, SQL Server, and PostgreSQL**, and I am well-versed in version control systems, especially **Git**.

In addition to my technical capabilities, I have experience working with **AWS** for deploying and managing applications, and I continuously seek opportunities to expand my knowledge and adapt to new tools and technologies. I take pride in my **problem-solving skills**, my ability to learn independently, and my commitment to working collaboratively within a team environment.

Veritech Solutions' emphasis on delivering high-quality, cross-functional solutions deeply resonates with my own values. I am eager to contribute my skills and grow alongside your experienced development team.

Regarding compensation, I would like to indicate my expected starting salary to be **KES 30,000 per month**, in line with the entry-level nature of my application and my strong willingness to learn and grow within the company.

Thank you for considering my application. I have attached my CV for your review. I would be grateful for the opportunity to further discuss how I can be an asset to your team.

Sincerely,
KAHENI PETER.
